

THE MANAGER

The Side Manager needs to be competent in all aspects regarding the Manager's duties, including the Bowslink recording system, and should be carefully chosen for the role by the Club. The Manager is responsible for;

- The draw for rinks, following the correct procedure.
- Writing the correct names of all players including the correct spelling of names on the scorecards, the Team Sheet and on the Bowslink website.
- Completing the Team Sheet correctly with all sections filled out in full
- Ensuring that scores are correct and points are allotted accordingly.
- The HOME Side Manager is responsible for ensuring the results are entered onto the Bowslink website at the completion of the game. The AWAY Side Manager shall within 4 hours of the match completion, ensure that the results on the website are correct, and confirm the result. This includes Forfeits and Abandoned games.
- Being familiar with the Pennant rules.
- Acting on the Sides behalf whenever any decision has to be made under any Laws and rules.
- Determining the application of the inclement weather rules.
- The Manager cannot be the Umpire on the day.
- Ensure that Team Sheets are retained for all games including byes, forfeits and abandoned games.

The Manager's role is an important one and in recent years there have been many mistakes made with scorecards, result notification and interpretation of the Rules.

Due to repeated requests for more accuracy with scorecards and results notification being ignored, the GV Executive has decided that failure to comply with any of the requirements for filling out the results notification, will result in the defaulting Side being penalised with either a loss of points, a fine or both. Therefore it is in the Sides best interests to appoint a person who is competent to the role of Manager.
